WDUSK ENERGY GROUP**

FIRST NATIONS RESPONDERS

OUR MISSION

**PREPARING FIRST NATIONS
RESPONDERS TO MANAGE
ENVIRONMENTAL EMERGENCIES
SAFELY**

First Nations Responders

WHO ARE WE?

First Nations Responders is a British Columbia based Indigenous owned company that specializes in providing the highest quality training available to First Nations personnel on how to respond effectively and safely to a major oil spill or an incident involving contaminants that threaten our land or waters.

First Nations Responders

WHY ARE WE?

First Nations Responders Inc. seeks to address one of the key problems, the lack of trained people in the work force, and the chronic under employment of First Nations young people, the largest and fastest growing population group in the province.

First Nations Responders

SERVICES WE PROVIDE

All training provided is fully certified and graduates from the First Responders Training Program will receive formal certification of their skills levels that are recognized industry-wide

First Nations Responders

SERVICES WE PROVIDE

Not only will graduates be able to respond safely and effectively to emergency situations on First Nations or other lands, they become instantly employable for their skills in emergency response management.

First Nations Responders

WHY IS THIS SO IMPORTANT?

Major Energy and other Natural Resource developments are underway or planned for British Columbia.

For far too long First Nations have not shared fully in the benefits from such development.

First Nations Responders

WHY IS THIS SO IMPORTANT?

Many of these developments will affect First Nations lands, waters, communities and cultural heritage.

The risks to the environment and to the vital interests of First Nations are High – Too High to be ignored.

First Nations Responders

WHY IS THIS SO IMPORTANT?

Environmental Emergencies can happen anywhere at anytime – often in remote locations.

First Nations residents are often the closest to such emergencies and stand to lose the most.

First Nations Responders

WHY IS THIS SO IMPORTANT?

They must be trained to recognize the risks involved and to respond quickly and safely.

First Nations Responders can provide the training needed to ensure human safety and to protect the environment.

First Nations Responders

WHY IS THIS SO IMPORTANT?

- Emergency safety is an extension of good governance and stewardship
- Creates regional nodes of trained responders
- Emergency preparedness adds value to environmental monitoring, and land management.
- Increases credibility of the community

First Nations Responders

WHY IS THIS SO IMPORTANT?

Towards Independence
Self-Sufficiency
Reclaiming our Communities
Leadership
Nation Building

First Nations Responders

WHAT WE DO!

We work with First Nations to help develop Community Environmental Emergency Response Plans and to assess training needs.

We maintain a Human Resource Roster of fully trained personnel who can be called upon immediately as First Responders.

First Nations Responders

WHAT WE DO!

We will work with all Governmental Agencies to ensure harmonization with existing or emerging Spill Response Regime requirements.

We will also work with companies to provide fully qualified and trained emergency response personnel.

First Nations Responders

**“THE TIMES THEY ARE A
CHANGING!”**
