

CAREER OPPORTUNITY

POSITION TITLE Intermediate Biologist

STATUS Permanent, Full Time

LOCATION Surrey, BC

About McElhanney

Based in Western Canada for over 100 years, McElhanney offers innovative and practical engineering, surveying, mapping, planning, landscape architecture, and environmental services. As a 100% employee owned and operated firm, with over 1,000 staff members, we are proud to offer qualified staff with shareholding options in our company. Our teams work hard to build strong connections with our staff, clients, and local communities.

We are solution-oriented environmental professionals focused on integrated, multi-disciplinary solutions for planning, design, permitting, construction, risk mitigation, assessment, remediation and reclamation. As recognized leaders and trusted advisors for industry, private, and municipal clients, we strive to protect ecological integrity and integrate natural assets, while balancing our clients' needs. With teams including professional agrologists, biologists, hydrogeologists, engineers, geoscientists and other certified professionals, McElhanney has the experience to successfully provide our clients with effective and long-term environmental solutions

Role Overview

McElhanney Consulting Services Ltd. is seeking an experienced and motivated *Intermediate Biologist* to join our busy Surrey, BC office. The successful candidate will be a key member of our environmental team which consists of a team of 15 biologists within the company with a wide range of expertise. In this role, you will work on a variety of projects including baseline data collection for environmental and RAR assessments that suit our clients' needs and on up to large multi-disciplinary construction projects.

Responsibilities

- All stages of environmental studies from proposal preparation through data collection, interpretation, and reporting
- Coordinating permits, licenses, and approvals
- Design and implement terrestrial and aquatic habitat mitigation and compensation measures
- Mentor junior staff members of the environmental team
- Coordinate subcontracting specialties as required
- Environmental management, erosion, and sediment control design and monitoring
- Provide environmental advice and solutions to guide design and assist with planning
- Other duties as assigned

Requirements

- At least 5 - 7 years of relevant work experience
- University degree in Biology or a related field
- RP Bio. or ability to achieve designation within 3 years
- Experience should include proposal preparation, aquatic, or terrestrial habitat assessments, environmental monitoring, permitting, and reporting
- Specialization in fisheries and/or aquatic sciences would be considered an asset
- Ability to work independently and supervise other junior members of an integrated consulting team
- Proven report writing experience and strong communication abilities
- Experience liaising with clients, First Nations, and government agencies
- Possession of a valid BC driver's license is required at the time of hire

If this is the opportunity for you, apply now or visit www.mcelhanney.com/careers to apply online. We thank all applicants for their interest; however, only shortlisted candidates will be contacted.

McElhanney's Surrey Environmental group is a multi-disciplinary professional office currently involved in integrated, multi-disciplinary solutions for planning, design, permitting, construction, risk mitigation, assessment, remediation and reclamation. We enjoy a high level of job satisfaction due to solid team effort and a positive corporate culture. Located on the 23rd floor of Central City Tower, our modern office space is near the SkyTrain and readily accessible via public transit.
